Welcome to the 15th Nature Photography's contest "Antoni Ribes Escolà" 2019, opened to amateur and professional photographers from around the world, organized by Torres de Segre's town hall, through its Department of Natural Environment and heritage promotion.

From the beginning our goal has been to value and spread the art of photography and promote environmental protection and environmentalism at local and global levels; "Act locally and think globally"!!!

The Town Hall is committed to the respect for nature, so the images submitted to the contest should reflect faithfully the natural situations, respecting the uniqueness of the environment, conservation of living creatures in their habitat, avoiding suffering, disruption or interference in their behavior. The competition rewards excellence in photographs. We also seek a critical look that translated into images environmental allegations of misuse in the environment in our municipality, while documenting, locally and globally, diversity, beauty, mystery and fragility of life in our land.

Competition rules

1. Participants

Participation in the contest is open to anyone, whether amateur or professional anywhere in the world, regardless of their nationality.

Excluded organizers, committee members, and people who are part of the jury.
